WHY ROOTS

A local uniform program built for Kansas City volleyball programs, designed with your team, priced for your budget, and backed by a mission bigger than the uniform itself.

Local, Kansas City–Based

Roots Volleyball Academy works directly with schools, coaches, and athletic directors throughout the Kansas City area. You work with a program that knows the local volleyball community, not a call center. From first conversation to final delivery, you have a direct line to the people building your uniforms.

Full Customization, No Upcharge

Every design in this collection is a starting point, not a fixed product. School colors, logo placement, player numbers, team name, and libero styling are all included at no additional design charge, so your team takes the court looking like your program, not a stock catalog photo.

A Mission Behind Every Jersey

Roots Volleyball Academy was built on the belief that access to volleyball shouldn't depend on a family's financial circumstances. Proceeds from every school order support the Dr. Meshach McKnight Foundation, which funds athletic scholarships, equipment, and free community clinics for young athletes across the Kansas City area. When your program orders through Roots, your uniforms do double duty, outfitting your team and opening doors for another athlete.

Five collections. Full customization. One local team behind every order. Take a look at what your program's uniforms could look like, starting on the next page.

CUSTOMIZATION & PRICING

MORE THAN A UNIFORM

Roots Volleyball Academy believes access to volleyball should not be determined by a family's financial circumstances. Proceeds from the Roots School Volleyball Collection support the Dr. Meshach McKnight Foundation and its work to expand volleyball opportunities for young athletes throughout the Kansas City community.

When your program suits up, you help another athlete get an opportunity to play.
